

AMS
AIR MERCY SERVICE

EMPLOYEE SPOTLIGHT

If your life had a
theme song, what
would it be?

'Keep It Moving'
by Statik
Selektah.

*It is a constant
operational
reminder to
maintain
progression and
focus on daily
improvement.*

Noah is a AMO Apprentice currently completing his Aircraft Maintenance Trade qualification. Having grown up just few minutes from the Cape Town International Airport, Cape Town will always be his home. He brings a strong technical focus and deep local roots to our AMO team.

NOAH KRIGER

Changing Lives. **Saving** Lives.

INTRO

Home: Where is it and what does it mean to you?

"I grew up just five minutes away from the airport, so aviation has practically been in my backyard my entire life. No matter where my travels take me, Cape Town is the place I will always call home."

How would you describe what you do in your role to someone unfamiliar with your profession?

"I'm a Flying-Car Mechanic."

MORE ABOUT NOAH

What inspired your love for aviation, and how does that shape the value you find in the AMS mission?

"My passion for aviation developed while travelling around the world. Every airport had an energy created by people either excited to leave or happy to return. Being able to contribute to this excitement for so many people, who would otherwise never experience seeing the world from 20,000 feet, is something I will always value."

"...family is the ultimate support structure that keeps everything grounded. Having that reliable foundation at home is what allows me to focus completely on my training and push forward in my trade every day."

PERSPECTIVES & PURPOSE

What has been one of your most rewarding experiences since joining the team?

"Working at **AMS** has provided me with memorable insight into aviation, but my biggest learning has come from the experience of travelling across South Africa and the opportunity to work with all different types of people."

If you could instantly master one hidden talent overnight, what would it be?

"I have learnt so much through the industry, but if I could master one thing, it would be to work on an aircraft by myself with the confidence to do what I know is right."

What do you enjoy doing after hours to clear your mind and reset?

"Every day after work, I take my dogs for a walk to recap on how the day went and what I need to do to be better tomorrow. I love being outdoors and will hike or swim come rain or shine."

What advice would you put on a billboard for the world to see?

"ALL ACTIONS HAVE CONSEQUENCES; IT'S UP TO YOU TO MAKE THEM GOOD OR BAD."
